[Table of Contents](#)**PART I****ITEM 1. BUSINESS****Our Company**

Cloudweb, Inc. is a Florida corporation incorporated on May 25, 2014 as Formigli, Inc. In December 2015, the Company changed its name to Data Backup, Inc., and on November 4, 2016, the Company changed its name to Data Backup Solutions Inc. On October 1, 2017, the Company changed its name to Cloudweb, Inc.

Our headquarters are located at 800 W El Camino Real Suite 180 Mountain View, Florida, CA 94040. We do not have a corporate website.

Corporate History

Our Company was incorporated on May 25, 2014 under the name “Formigli, Inc.” Our Company was originally formed with the intent to engage in the worldwide distribution of custom handmade Italian road bikes, made by Renzo Formigli.

On December 3, 2015, Amy Chaffe, our former President, Chief Executive Officer, Chief Financial Officer and founder, decided to conduct a corporate restructuring. Our Company filed Articles of Amendment to our Articles of Incorporation with the Florida Department of State whereby we amended our Articles of Incorporation by (i) changing our name to “Cloudweb, Inc.”, (ii) increasing our authorized number of shares of common stock from 100 million to 500 million, and (iii) increasing our total issued and outstanding shares of common stock by conducting a forward split of such shares at the rate of 100 shares for every one (1) share currently issued and outstanding and made submission to FINRA with respect to the corporate action and requested a change of ticker symbol to “CLOU”. Our Company’s common stock is quoted on the Pink Sheets of the OTC Markets, under the symbol “CLOW”, and first traded on the OTC Markets in November 2015.

On January 28, 2016, our Company concluded a Share Exchange Agreement entered into with Zhi De Liao (“Mr. Liao”), whereby our Company issued 2,500,000 shares of common stock to Mr. Liao in exchange for 100% of the issued and outstanding equity interests of Data Cloud Inc. a Nevada corporation (“Data Cloud”). Data Cloud owned 100% of the issued and outstanding equity interests of Web Hosting Solutions Ltd., a United Kingdom Company (“WHS”), which it purchased from James Holland for US\$72,000 (GBP 47,000) on November 25, 2015.

At the time WHS had been providing web hosting solutions for approximately ten (10) years and became a UK private limited Company in 2012. In connection with the Share Exchange Agreement, our Company elected to enter into the web hosting industry and discontinue our former business operations.

As a result of the Share Exchange Agreement, Mr. Liao became our Company’s executive officer and sole member of the Board of Directors. Concurrently, Mr. Liao, through his controlled entity, Letterston Investments Ltd., acquired 250,000,000 shares of common stock from our former officer and director Ms. Amy Chaffe. As a result, on the transaction date, Mr. Liao effectively controlled approximately 81% of our Company’s issued and outstanding shares of common stock.

The submission of the change of name to Data Backup Solutions, Inc. and the reverse stock split was not completed and the submission was closed.

There is a limited public market for our common shares. Our common shares are listed for quotation on the Pink sheets of the OTC Markets under the trading symbol "CLOW". Trading in stocks quoted on the Pink Sheets is often thin and is characterized by wide fluctuations in trading prices due to many factors that may be unrelated to a company's operations or business prospects.

These conditions raise substantial doubt as to our Company's ability to continue as a going concern. Our Company is currently seeking new business opportunities with established business entities for merger with or acquisition of a target business. The accompanying financial statements do not include any adjustments that might be necessary should we be unable to continue as a going concern. If we fail to generate positive cash flow or obtain additional financing, when required, we may have to modify, delay, or abandon some or all of our business plans.

Contractual Obligations

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Critical Accounting Policies

The preparation of financial statements in accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. A change in managements' estimates or assumptions could have a material impact on our financial condition and results of operations during the period in which such changes occurred. Actual results could differ from those estimates. Our financial statements reflect all adjustments that management believes are necessary for the fair presentation of their financial condition and results of operations for the periods presented.

[Fair Value of Financial Instruments](#)

ASC 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The carrying value of cash, prepayments and the Company's loan from shareholder approximates its fair value due to their short-term maturity.

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued. Our Company's management believes that these recent pronouncements will not have a material effect on our financial statements.

**Report of the Independent Registered Public Accounting Firm
To the shareholders and the board of directors of
Cloudweb, Inc.**

Opinion on the Financial Statements

We have audited the accompanying balance sheets of **Cloudweb, Inc.** as of December 31, 2024 and 2023, and the related statements of operations, changes in stockholders' deficit, and cash flows for each of the two years in the period ended December 31, 2024 and 2023, and the related notes (collectively referred to as the "financial statements").

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2024, in conformity with accounting principles generally accepted in the United States of America.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern as disclosed in Note 3 to the financial statement, the Company incurred a net loss of \$(72,960) and an accumulated deficit of \$(233,460,907). These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Critical Audit Matters

Critical audit matters are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. Communication of critical audit matters does not alter in any way our opinion on the financial statements taken as a whole and we are not, by communicating the critical audit matters, providing separate opinions on the critical audit matter or on the accounts or disclosures to which they relate.

Going Concern Uncertainty – See also Going Concern Uncertainty explanatory paragraph above

As described in Note 3 to the financial statements, the Company has significant operating losses, accumulated deficit, and a working capital deficiency.

The Company is dependent on obtaining additional working capital funding from related party and unaffiliated parties to execute its plans and continue operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

We determined the Company's ability to continue as a going concern is a critical audit matter due to the estimation and uncertainty regarding the Company's available capital and the risk of bias in management's judgments and assumptions in their determination.

The procedures performed to address the matter included.

- We inquired of executive officers, and key members of management, of the Company regarding factors that would have an impact on the Company's ability to continue as a going concern,
- We evaluated management's plan for addressing the adverse effects of the conditions identified, including assessing the reasonableness of forecasted information and underlying assumptions by comparing to actual results of prior periods and actual results achieved to date, and utilizing our knowledge of the entity, its business and management in considering liquidity needs and the Company's ability to generate sufficient cash flow,
- We assessed the possibility of raising additional debt or credit,
- We evaluated the completeness and accuracy of disclosures in the consolidated financial statements.

CLOUDWEB, INC.
NOTES TO AUDITED FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023
(in U.S. Dollars, except for number of shares or otherwise stated)

NOTE 1 – ORGANIZATION AND BUSINESS OPERATIONS

Cloudweb, Inc. (the “Company”, or “we”) is a Florida corporation incorporated on May 25, 2014 as Formigli, Inc. In December 2015, the Company changed its name to Data Backup, Inc., and on November 4, 2016, the Company changed its name to Data Backup Solutions Inc. On October 1, 2017, the Company changed its name to Cloudweb, Inc.

We are currently exploring different options of further developing and marketing our web hosting and data storage services. This includes plans to make hosting available for free while being supported by advertiser content. The Company will also look into white labeling its services to allow other brands to use our platforms for their own needs.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIESBasis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars. The Company’s year-end is December 31.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

ASC 820 “*Fair Value Measurements and Disclosures*” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The carrying value of cash, prepayments and the Company’s loan from shareholder approximates its fair value due to their short-term maturity.

Web Development Cost

In accordance with FASB ASC350-50 “Web Development Costs”, all costs incurred during the website planning stage are incurred. During the website application and infrastructure development stage, software tool costs and internet domain costs are capitalized, and website hosting costs are expensed. Cost incurred in the graphics development, content development and operating stage are generally expensed unless the costs are software related and should then be capitalized.

Share-based Expenses

ASC 718 “Compensation – Stock Compensation” prescribes accounting and reporting standards for all share-based payment transactions in which employee services and non-employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees and non-employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

Convertible Financial Instruments

The Company bifurcates conversion options from their host instruments and accounts for them as free-standing derivative financial instruments if certain criteria are met. The criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not remeasured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur, and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument. An exception to this rule is when the host instrument is deemed to be conventional, as that term is described under applicable U.S. GAAP.

Income Taxes

The Company accounts for income taxes pursuant to FASB ASC 740 “*Income Taxes*”. Pursuant to ASC 740 deferred income taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences, and operating loss carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The provision for income taxes represents the tax expense for the period, if any, and the change during the period in deferred tax assets and liabilities. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. Under ASC 740, the impact of an uncertain tax position on the income tax return may only be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant taxing authority. At December 31, 2024 and December 31, 2023, there were no unrecognized tax benefits.

Basic and Diluted Income (Loss) Per Share

The Company computes income (loss) per share in accordance with FASB ASC 260, “Earnings per Share” which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted income (loss) per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

For the year ended December 31, 2024 and 2023, respectively, the following convertible notes were excluded from the computation of diluted net loss per shares as the result of the computation was anti-dilutive:

	December 31, 2024	December 31, 2023
	(Shares)	(Shares)
Convertible notes payable	55,326,667	55,326,667

Recent accounting pronouncements

In August 2020, the FASB issued ASU 2020-06, ASC Subtopic 470-20 “Debt—Debt with “Conversion and Other Options” and ASC subtopic 815-40 “Hedging—Contracts in Entity’s Own Equity”. The standard reduced the number of accounting models for convertible debt instruments and convertible preferred stock. Convertible instruments that continue to be subject to separation models are (1) those with embedded conversion features that are not clearly and closely related to the host contract, that meet the definition of a derivative, and that do not qualify for a scope exception from derivative accounting; and, (2) convertible debt instruments issued with substantial premiums for which the premiums are recorded as paid-in capital. ASU 2020-06 removes from U.S. GAAP the separation models for (1) convertible debt with a CCF and (2) convertible instruments with a beneficial conversion feature (“BCF”). With the adoption of ASU 2020-06, entities will not separately present in equity an embedded conversion feature these debts. The amendments in this update are effective for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020, including interim periods within those fiscal years. The Company has chosen to early adopt this standard on January 1, 2021 financial statements and did not record BCF on the issuance of convertible notes with conversion rate below the Company’s market stock price on the date of note issuance.

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740) - Improvements to Income Tax Disclosures (“ASU 2023-09”), which is intended to enhance the transparency and decision usefulness of income tax disclosures. The amendments in ASU 2023-09 provide for enhanced income tax information primarily through changes to the rate reconciliation and income taxes paid information. ASU 2023-09 is effective for the Company prospectively to all annual periods beginning after December 15, 2024. Early adoption is permitted. We are currently evaluating the impact this update will have on our consolidated financial statements and disclosures.

We have evaluated all other recently issued, but not yet effective, accounting pronouncements and do not believe that these accounting pronouncements will have any material impact on our financial statements or disclosures upon adoption.

NOTE 3 – GOING CONCERN

The Company believes that its existing capital resources may not be adequate to enable it to execute its business plan. These conditions raise substantial doubt as to the Company’s ability to continue as a going concern. The Company estimates that it will require additional cash resources from loan from related party and unaffiliated parties based on its current operating plan and condition. The accompanying financial statements do not include any adjustments that might be necessary should we be unable to continue as a going concern. If we fail to generate positive cash flow or obtain additional financing, when required, we may have to modify, delay, or abandon some or all of our business and expansion plans.

NOTE 4 – RELATED PARTY TRANSACTIONS

During the year ended December 31, 2024 and 2023, the Director of the Company advanced \$33,250 and \$43,049 for paying operating expenses on behalf of the Company, respectively. The loan is non-interest bearing and due on demand.

On June 14, 2024, Cloudweb, Inc (the “Company”) terminated its relationship with its independent registered public accounting firm, BF Borgers CPA PC (“BF BORGERS”). On June 20, 2024, the Company engaged Boladale Lawal & Co. (“BOLADALE LAWAL”), as BF Borgers’ replacement. The decision to change independent registered public accounting firms was made with the recommendation and approval of the Company’s Board of Directors.

BF Borgers’ audit reports on the Company’s financial statements as of and for the fiscal years ended December 31, 2023 and December 31, 2022 did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to audit scope or accounting principles.

During the fiscal years ended December 31, 2023 and 2022, and the subsequent interim period through the date of this report, there were no disagreements, as that term is defined in Item 304(a)(1)(iv) of Regulation S-K, between the Company and BF Borgers on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to BF Borgers’ satisfaction, would have caused BF Borgers to make reference to such disagreements in its audit reports.

There were no disagreements related to accounting principles or practices, financial statement disclosure, internal controls or auditing scope or procedure during the two fiscal years and interim periods.

ITEM 9A. CONTROLS AND PROCEDURES*Evaluation Of Disclosure Controls And Procedures*

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer (our chief executive officer), we have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the *Securities and Exchange Act of 1934*, as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded as of the evaluation date that our disclosure controls and procedures were ineffective such that the material information required to be included in our Securities and Exchange Commission reports is accumulated and communicated to our management, including our principal executive and financial officer, recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms relating to our Company, particularly during the period when this report was being prepared.

[Table of Contents](#)*Management's Annual Report On Internal Control Over Financial Reporting*

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, for our Company.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of its management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Management recognizes that there are inherent limitations in the effectiveness of any system of internal control, and accordingly, even effective internal control can provide only reasonable assurance with respect to financial statement preparation and may not prevent or detect material misstatements. In addition, effective internal control at a point in time may become ineffective in future periods because of changes in conditions or due to deterioration in the degree of compliance with our established policies and procedures.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in there being a more than remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

Under the supervision and with the participation of our chief executive officer, management conducted an evaluation of the effectiveness of our internal control over financial reporting, as of December 31, 2024, based on the framework set forth in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our evaluation under this framework, management concluded that our internal control over financial reporting was not effective as of the evaluation date due to the factors stated below.

Management assessed the effectiveness of the Company's internal control over financial reporting as of evaluation date and identified the following material weaknesses:

Insufficient Resources: We have an inadequate number of personnel with requisite expertise in the key functional areas of finance and accounting.

Inadequate Segregation Of Duties: We have an inadequate number of personnel to properly implement control procedures.

Lack Of Audit Committee & Outside Directors On The Company's Board Of Directors: We do not have a functioning audit committee or outside directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures.

Management is committed to improving its internal controls and will (1) continue to use third party specialists to address shortfalls in staffing and to assist the Company with accounting and finance responsibilities, (2) increase the frequency of independent reconciliations of significant accounts which will mitigate the lack of segregation of duties until there are sufficient personnel and (3) may consider appointing outside directors and audit committee members in the future.

Management, including our chief executive officer, has discussed the material weakness noted above with our independent registered public accounting firm. Due to the nature of this material weakness, there is a more than remote likelihood that misstatements which could be material to the annual or interim financial statements could occur that would not be prevented or detected.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the our registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this annual report.

Changes In Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter for our fiscal year ended December 31, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Except as provided above, there is no information to be disclosed in a report on Form 8-K during the fourth quarter of the year covered by this Form 10-K that has not been previously filed with the Securities and Exchange Commission.

Nomination Process

As of December 31, 2024, we did not effect any material changes to the procedures by which our shareholders may recommend nominees to our board of directors. Our board of directors does not have a policy with regards to the consideration of any director candidates recommended by our shareholders. If shareholders wish to recommend candidates directly to our board, they may do so by sending communications to the president of our Company at the address on the cover of this annual report.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth certain information concerning the number of shares of our common stock owned beneficially as of February 17, 2025 by: (i) each person (including any group) known to us to own more than five percent (5%) of any class of our voting securities, (ii) members of our Board of Directors, and or (iii) our executive officers. Unless otherwise indicated, the stockholder listed possesses sole voting and investment power with respect to the shares shown.

<i>Directors and Executive Officers as a Group</i>	<i>25,300,556 Shares of Common Stock</i>	<i>90.95%</i>

(1) Under Rule 13d-3, a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares: (i) voting power, which includes the power to vote, or to direct the voting of shares; and (ii) investment power, which includes the power to dispose or direct the disposition of shares. Certain shares may be deemed to be beneficially owned by more than one person (if, for example, persons share the power to vote or the power to dispose of the shares). In addition, shares are deemed to be beneficially owned by a person if the person has the right to acquire the shares (for example, upon exercise of an option) within 60 days of the date as of which the information is provided. In computing the percentage ownership of any person, the amount of shares outstanding is deemed to include the amount of shares beneficially owned by such person (and only such person) by reason of these acquisition rights. As a result, the percentage of outstanding shares of any person as shown in this table does not necessarily reflect the person's actual ownership or voting power with respect to the number of shares of common stock actually outstanding on February 17, 2025. As of February 17, 2025, there were 27,819,385 shares of our Company's common stock issued and outstanding.

(2) The shares of common stock are registered in the name of Letterston Investments Ltd., a company in which Zhi De Liao has sole voting and dispositive control.
